DCG History and Clients

The David Consulting Group was founded in 1994 by two world-class leaders in the field of Function Point Counting and Software Metrics, David Garmus and David Herron. We are very fortunate to have “the Davids” continue to actively participate in the company building and delivering value for our Customers as well as mentoring our staff.

Together with the President (and Owner) of DCG, Michael D. Harris, David Herron and David Garmus form the DCG Advisory Board which provides a forum in which industry trends are monitored and adjustments to the company’s strategy and services considered.
