MANAGEMENT

VALUE

EXPERTISE

David Consulting Group is an international software development consulting firm helping companies frustrated with development costs, hampered by poor quality or struggling to estimate and achieve on-time delivery.

We help global organizations improve their competitiveness through enhancements to the productivity, performance and quality of their software and IT delivery.

Learn cutting edge software performance technologies

Worldwide there is a growing trend to use formalized methodologies, such as function point counting and software measurement metrics to support the management of software, improve software quality and leverage IT assets. DCG has been at the forefront of this trend and has assisted countless organizations to improve their competitiveness through enhancements to the productivity, performance and quality of their software and IT delivery.

Opportunities for national and global travel

DCG has provided services on every continent from North America to South America, Europe, Africa, the Middle East and Asia. You will be joining a team of consultants at the top of their profession, highly qualified and well used to translating the results of sizing and measurement exercises into practical business driven recommendations.
